Teddy was born with Pectus excavatum, a life-threatening condition where the ribs and breastbone grow inward, putting pressure on the heart. His two siblings passed away, but thanks to you, we were able to get him corrective surgery while his bones were still soft and save his life.

He now has a forever home and a lifetime of love ahead of him.

Teddy wanted to thank you from the bottom of his healthy heart and wish you a very happy Valentine's day.

With gratitude,

Jen Gresham

Donor Relations Manager
